

FAQ – Supply of New Member Kits

A number of enquiries have been received at the Multiple District office regarding the supply of New Member Kits to Clubs.

It is Lions Clubs International Policy that Clubs, when requesting new members kits, are to provide the name of the intended new member and anticipated Induction date when ordering their kit. On provision of that information, Club Supplies will forward to the Club the requested kits within 48 hours of receipt to ensure that kits are received in plenty of time to arrange induction at the Club.

The change in process was implemented by LCI over 12 months ago because Clubs were ordering bulk quantities of New Member Kits and they were not being used. Once the Certificate for the current year became out of date further kits were ordered "just in case". This meant that there were many wasted kits not being used at considerable cost to the organisation.

With the change implemented, wastage is limited and kits are supplied to meet the specific needs of Clubs.

Please remember that the kit is an 'Induction Kit', not a 'prospecting kit'. Club Supplies at the National office has a number of products available for purchase that can assist you in providing information to prospective members.

With the new "Centennial Membership Program" now running, all kits, badges and Certificates have been re-designed and stocks are available from the MD Office Club Supplies by following the requested process. All kits are supplied from LCI Chicago and are held at the MD Office for distribution to Clubs.
