FAQ – Some common errors

The National Office uses the database maintained by the Club Secretary in the myLCI portal to create the labels for the Lion Magazine to be sent bi-monthly to all members. This database is manually formatted every second month to correct some common errors that are often associated with long-term members rather than recent members. The National Office requests that all Club Secretaries review their members' details on the myLCI portal and correct these common errors to reduce the time and costs associated with preparing the bi-monthly Lion Magazine.

Your members' details can be viewed in the myLCI portal and edited by selecting "Edit Member" on the right hand side. After any editing is done, please select Save and you will receive a confirmation pop up box stating the members' information was updated.

The common errors and how they should be corrected are outlined below.
