Dear Lions

As you will be aware, the Lions National Office has been affected by a fire on Monday evening, 27 July 2020. The fire started in an adjacent building that spread to the National Office. We are very appreciative of the Newcastle Fire Brigades with over 10 units in attendance, preventing the total loss of our building.

At this stage, the rear of the building including the Boardroom, kitchen and bathrooms will need extensive repair and rebuilding with the remainder requiring cleaning and restitution due to smoke damage. With the excellent support of our insurance underwriters, the insurance assessors have already been on site and cleaning of premises has commenced today.

We have decided to relocate the office for the 3 months that will be required for completion of works and at the time of writing we are searching for an alternative location.

What does this mean for service provision?

Staff are trying to keep things going as much as possible. We have established good systems for remote-working through the COVID 19 pandemic and this will help maintain operations. Of course, there is substantial additional work associated with the relocation of the office and the management of recovery, so service will be disrupted. This particularly will affect Club Supplies, as you will note that it will take some time to clean items, replace damaged and lost items, and relocate our warehouse.

We do hope to establish a temporary office within 2 weeks, so we appreciate your patience in the interim.

Please e-mail any urgent matters and the office telephone number is being managed for important enquiries.

Thank you to the many Lions who have sent messages of support. I'd like to also acknowledge our great team at the National Office who are managing the disruption with smiling faces.

Rob Oerlemans – Executive Officer
