

Australian Motorhoming Lions Club

AMLC

The AMLC chartered on June 2016 and has gone onto having members in most states across the Country.

We have introduced so many new people to Lions International and it is something we are very proud of. Our Club was formed mainly to assist other Lions Clubs as we travel all over the Country

Our club does assist at times if we see a region that is in need of some help and there are no Lions Clubs in that region. We were very successful with the Guinness World Record in Barcaldine on the 26th May 2019 in obtaining the World record but more importantly bringing in much needed money into Barcaldine Region.

"The Australian Motorhoming Lions Club"

*We are people who like to travel
From state to state we love to roam
Checking our Country's diversity
With the view from a motorhome*

*As we travel we have a mission
While we see the sites across this land
To see if community Lions Clubs
Could use a helping hand*

*For we are the
Australian Motorhoming Lions Club
And our goal is simple but true
To any community Lions we meet
We offer our help to you*

We are a special interest Lions Club and the main qualification to become a member you or your partner must be the owner of a qualifying Motorhome.

Please go our Website for further information and we hope that you will one day join us on your travels around this country.
