PLEASE NOTE: CGU place all Motor Fleet policies under a 'unit cost' rating and an Annual Declaration wording. All additions and deletions (for market value up to \$500,000) to those similarly insured are automatically covered in the wording, meaning there is no need to issue mid-term premium endorsements throughout the year.

CGU will arrange for a one-off adjustment at the end of the policy period calculated on the difference between the number of vehicles at the inception of the period of insurance and the number of vehicles at the expiry of the period of insurance and charge 50% of the unit costs initially provided at inception.
